SKILLS

JavaScript/TypeScript (Angular,
React, Node, React Native)
HTML, CSS
Git
SQL (MySQL, PostgreSQL,
Microsoft SQL Server, MongoDB)
Docker, CI/CD
Jasmine, Karma, Jest,
Playwright
SCRUM
Claude Code

LANGUAGES

Spanish	Native
English	C1 (Cambridge)

FRANCISCO JAVIER ROSA

SOFTWARE DEVELOPER

Systems Engineer

Minsait | July 2024 - Present

- Migrated, optimized, and documented shared Angular libraries (Business, API, Security, Utils) to v18/20, reaching 10,000+ internal downloads within a banking company.
- Developed the frontend for an AI-powered internal chat used by 10+ teams, with prompt templates, file attachments, Google Drive integration, conversation sharing and resumption.
- Led Playwright adoption and setup, implementing custom fixtures to handle E2E contexts using IndexedDB browser-based storage.
- Built and led adoption of an internal CLI for installing and configuring the Claude development environment (glab, gcloud, OpenSpec), including plugin configuration, telemetry, and work profile management — 100+ active users.
- Designed and implemented a CLI to sync GitLab with OpenSpec (SDD), automatically converting specs into GitLab issues.
- Built custom Claude Code hooks to reduce command verbosity, enable secure intranet access and automate SDD sync on session end.

FullStack Developer

Digital55 | January 2023 - July 2024

- Developed a large-scale hospital management system using Angular (v13–15) and Express, collaborating with healthcare professionals to ensure industry-specific requirements.
- Applied advanced RxJs, NgRx, and Reactive Forms to build reusable components throughout the application.
- Optimized backend architecture by designing controllers and services, leveraging TypeORM transactions and SQL entity modeling for high performance.

FullStack Developer

ViewNext | September 2021 - January 2023

- Developed full-stack web applications using Angular, Express, and PostgreSQL, including a specialized platform for the naval industry.
- Architected and documented REST APIs using Express.js and TypeORM to manage core business logic and data operations.
- Maintained and expanded a React project for an energy company using Redux, Axios, Jest and Antd.

Backend developer trainee

Berger Levrault | February 2021 - May 2021

EDUCATION

Software Engineering Degree

University of Seville | 2017 - 2021
